## EZ-SERIES SHREDDERS

**HUGE SAVINGS ON WASTE REMOVAL  
DESIGNED FOR HIGH THROUGHPUT**

**REDUCE YOUR WASTE VOLUME BY UP TO 70% AND  
ACHIEVE SIGNIFICANT SPACE AND COST SAVINGS**

Our range of German made Shredders and Briquetting Presses are of industry leading performance, reliability and quality. We use intelligent 'high throughput' designs, proven in countless operations across Austral Asia and Europe.

The EZ series' V rotor is the most aggressive rotor design on the market and offers optimum material intake, maximum throughput and minimum knife wear.

We use large slow moving rotors, combined with hardened replaceable cutting knives. With Airtight Solutions' range of EZ shredders, you can expect years of top performance and reliable operation.
